THE BEST PLAY SCHOOL

PLAY GROUP PRE NURSERY KG

LITTLE LEADERS PLAY SCHOOL is a premier chain of pre-schools and childcare centers across the country that was established in 2012 under the aegis of Leaders Learning House Pvt.Ltd.

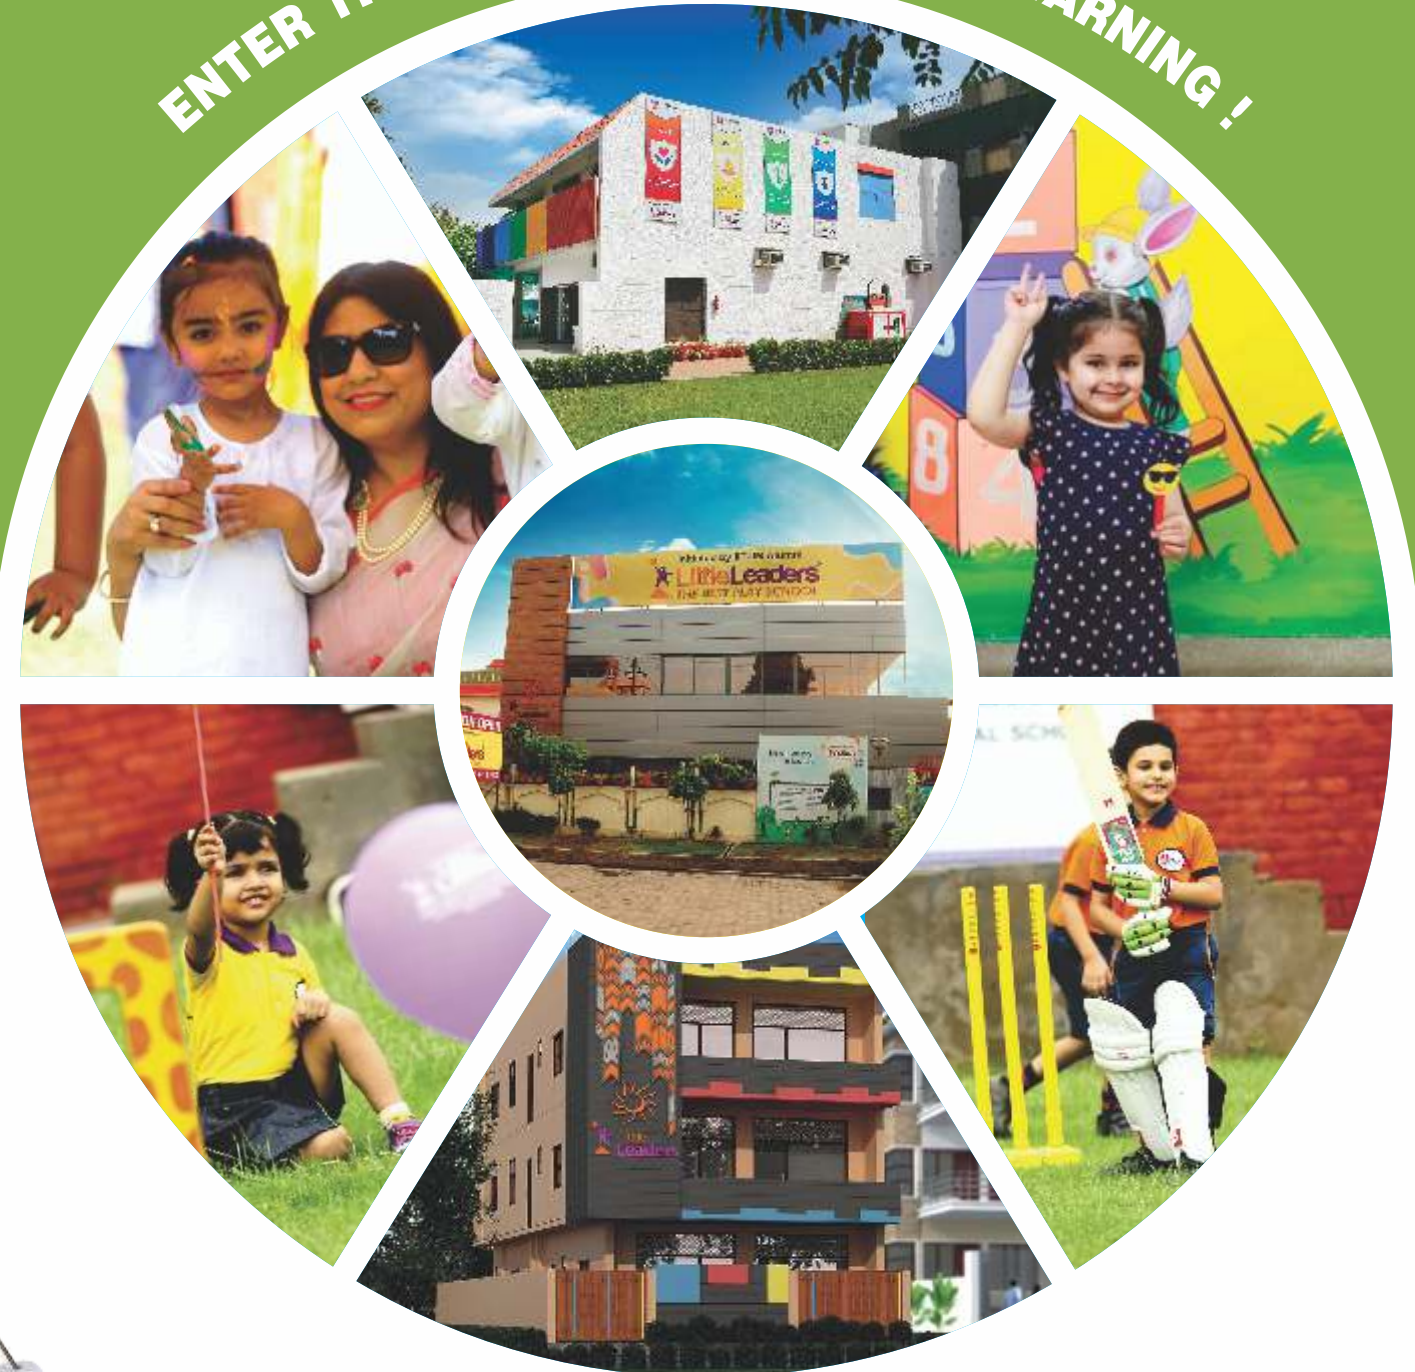

It is an initiative taken by a determined and dedicated team of experts in education, child care and development sector, working tirelessly for excellence since last 50 years and passing the baton to the generations. Thus, pioneering to take the foothold of the culture and value system as well as evolve with the dynamically changing tech-world at the same time.

The school emphasize on the holistic development of the learners with the tastefully designed infrastructure and world-class curriculum designed by the expert team of researchers.

The school provides the best hands on experience, of the new age learning pedagogies, self and social awareness, through its national and international set of global support providers to the stakeholders.

CHILD CARE

In the Post-Covid era we have rediscovered the very idea of our daycares across the nation. The child care that we provide at Little Leaders DAYCARE is one of its own kinds, with the well-structured infrastructure, a harmonious, happy environment and healthy meals we ensure that the child must get a home away from home touch and feel.

Well-designed learning programs enable their learning and stimulate their curiosity, giving them the opportunity to be independent, self-reliant and become solution finders.

STATEMENT OF PHILOSOPHY

We believe that the learners when nurtured in a positive and stimulating environment emerge as future global citizens with holistic personality, high ethical values and progressive minds with technological intelligence that they need to function in the multilingual and multicultural societies we live in.

VISION

Our vision is to create a lovable and nurturing environment for both parents and children by setting new benchmarks through a trans-disciplinary, competency driven and reformative ecosystem and make them self-adaptive & resilient future ready global citizens.

PATHWAYS

Leaders Group of Schools are aligned with the NEP 2020

The LL Learning Programme has its foundation based strongly on the guidelines set by the National Curriculum Framework (NCF).

Through integration of technology on the global standards (STEAM LABS, CODING & ROBOTICS)

Accredited from STEM Org, Stanford Seeds & Google

- 1 NEP 2020**
Essentially, children between the age groups of 3 years to 8 years will be part of the Foundational Stage under ECCE (Early Childhood Care and Education). Existent 10+2 structure will be modified with the new pedagogical and curricular restructuring of 5+3+3+4 covering ages 3-18
- 2 National Curriculum Framework for School Education (NCFSE), the National Curriculum Framework for Early Childhood Care & Education (NCFECE) are the 2 major pillars of NCF.**
Which is the mandate document that will bring about a paradigm shift with focus on holistic development of children, emphasis on skilling, vital role of teachers, learning in mother tongue, cultural rootedness.
- 3 STEAM (Science, Technology, Engineering, Arts, and Mathematics) Labs is a concept that aligns innovative thinking in a traditional education curriculum to support the modern academics. It can create a community where people of different age groups and abilities come together to collaborate their ideas, knowledge, skills, and learning**

Our Associations & Accreditations

ATTRIBUTES OF CURRICULUM

“EDUCATION IS NOT THE DESTINATION. IT’S A LIFELONG JOURNEY !”

It is a comprehensive, multi-modality learning curriculum that takes cognizance of the varied learning styles of all learners and enables them to reach successful levels of understanding which they explore and discover at their own pace, no matter what their preferred learning style is.

It is our endeavor to make every child become expressive, innovative and inculcate life skills. We raise life-long learners who consistently work towards becoming the better versions of them. The curriculum is well-researched and designed to work with the student-centric approach.

A synergistic accumulation of sports, music, dramatics, dance and aggregate ICT along with the academics makes this exclusive curriculum an adept enabler which opens the door to all learning.

To inculcate undiscriminating and assimilating future ready approach towards the world, LEADERS TRANS DISCIPLINARY DOMAINS & their SMART (Specific, Measurable, Attainable, Relevant and Time-Bound) learning outcomes have been curated keeping in mind the age appropriateness of the learners. The School has initiated a set of activities that would work closely on the comprehensive learning in line with SDG-2030.

The significant 7-Dimensions are the keys that help us to run a successful Learning Program

- Physical and Mental Health
- Social and Emotional intelligence
- Inquiry Based learning
- Mastering Communication Skills
- Creative and Critical thinking Skills
- Information and Technology
- Encouraging Learners to Strive for Excellence
